INJURED WORKER

Workers Compensation Act Review Committee 2004:

Dear committee members;

I don't think that I should have to tell you how hard it is to adjust to a work related disability as well as the financial impact it has on us which brings me to my point of submission. I, if at all possible would like to ask that if an injured worker receiving wage loss benefits from WCB for a compensable injury especially after 10 years that if the claimant is put under special investigation for what ever reason that all information is interpreted correctly and if after a claimant goes through the appeal process and its been longer than 1 year and is found by the medical evidence justified to be entitled to wage loss benefits and that the investigation was in any way fabricated the claimant with false or inaccurate information or misleading information that the WCB chain of command be held responsible for the loss of credibility of the claimant (ie because of inaccurate information and loss of benefits a claimant can lose their home their credit their insurance policies their marriage their children their dignity their right not to become a burden on society their LIFE which has happened to many times without anyone being held responsible when the real facts come forth . how ever this can be interpreted it should be written with consideration to both WCB and claimant and known that only true information is to be used and that serious consequences will be used if there is any falsification of documents, misleading information, exaggeration of documents etc.; etc.

I thank you for your time I will be at each hearing in Manitoba

Sincerely; injured worker

This day 11th of March 2004

Injured Worker.
