I am here to let you know what I have to say. Lots of stress to whole family and starved out. Same as veterans affairs. When the pay co. sends me home have to wait four to six months for pay. Worked. had to. Take 100 mg. Demerol 8 292. to work. Lots of Accidents once fell 40 ft. off scaffold while climbing – hurt back. But going for operation on 2June and want to know why WCB uses injured workers money to invest like TRUE NORTH. Lost money that year. WCB is not financial company, but is to look after injured workers. When lose money Cops pay more, injured workers lose, no medical. I know have to wait five years for medical help, if fixed could be still waiting when on WCB our pension is too low. Nothing is going in it. I thought they would pay in to it. When income from WCB or whatever government says any income. why not WCB or disability? Wally Fox do you take cut in pay or you would say pay is max and pension. You get nothing. You get 4 times what I would get. Last daughter was lack of oxygen while waiting for pay 3 months from WCB. Had to take her to WPG. No money for gas. Waited 3 hours for my dad to get home for money for gas. RCMP came and took us in.
