I am a long time claimant and I would like to suggest a plan whereby an individual could receive a 1 time lump sum payment based on a long term wage loss replacement plan such as one that was created for me by my Vocational Rehabilitation Rep. My claim is for P.T.S.D and I suffer recurring problems related to the C.I. involved. One major area of concern to me is my loss of control of my life. I constantly feel under the direction of the W.C.B. and other entities such as M.D.'s ,Psychologists and Psychiatrists. I also suffer from extreme bouts of anxiety and panic attacks related to the P.T.S.D and other work related physical problems that I claimed,were originally accepted, but have since been rejected. The reason that I am requesting this is that I believe that this will give myself and people that are in a similar situation the freedom that we need very much to enhance our morale and dignity and independence that we have lost. I get feelings of near elation thinking about this possibility. If this were implemented, I would no longer remain as a claimant and at age 52, I don't look forward to being a claimant and in this position until age 65.

Thank you for your consideration in this matter.

Respectfully, Don Colvin Cl.# 97022617 / 8AW3
