Subject: New message from "The Workers Compensation Act Legislative Review"

Name: Jay Masterson

Organization:

Email: [REDACTED]

Phone: [REDACTED]

Message: There needs to be safeguards for employers incorporated into the act. Potential employers should have access to candidates WCB claim history, or a grading score of injury severity. This would protect the employer from hiring someone with undisclosed physical limitations. Employment candidates who are not forthcoming about previous injuries risk reinjury, and potentially creating an unsafe work environment for fellow employees.
